Dear coordinators,

In preparation of possible power outage on Campus, could you ask all laboratory occupants to:

1. Close all the hoods sashes all the way at the end of their work day this weekend. If we have extended power outage, chemical fumes can migrate out of the hoods into the lab and the hallway.
2. Please do not run experiments over the weekend that rely on power, water or any other utility

Have a nice weekend and stay dry and safe YM
